New Corporate Health & Wellness Center Promotes Work/Life Balance *Hospital/Business Partnership Increases Healthcare Accessibility*

At the Earth City location of World Omni Financial Corp. and JM&A Group, associates can now easily schedule a doctor's visit into their busy work days. A new onsite Health & Wellness Center will provide nearly 500 associates with access to two SSM DePaul Medical Group doctors and a full-time nurse for routine primary care.

The opening of this facility is another effort by parent company JM Family Enterprises, Inc. to promote healthy living and provide exceptional benefits for its nearly 4,000 associates nationwide. Earth City associates already have a newly renovated onsite fitness center as well as healthy food choices, life management tools, smoking cessation assistance, weight loss programs and more.

"Our company's founder and automotive legend Jim Moran built this company on the belief that associates are our most important asset, and we continue his guiding philosophy by always looking for new and better ways to care for our associates," said Colin Brown, president and CEO of diversified automotive company JM Family. To commemorate the grand opening the company also donated \$5,000 to the SSM DePaul Health Center Foundation. "This partnership with SSM DePaul Health Center will further promote healthy living among associates, increase accessibility to top doctors and provide some of the best health care and resources available."

Thanks to this unique partnership, two doctors will be onsite four hours every week, with their time increased as needed. They will also help schedule appointments for additional medical care at the hospital or with specialists. The nurse, which a committee of JM Family associates selected from a group of qualified professionals, is a full-time associate of the company and is available during regular business hours for consultation and routine procedures.

"We are honored that JM Family Enterprises selected us to provide healthcare services to their associates," said Pat Komoroski, president of SSM DePaul Health Center. "We applaud JM Family and their innovative approach to making health care readily accessible and affordable for all associates. This is a unique opportunity that should prove of great value to both JM Family and SSM."

In what is being dubbed a "virtual waiting room," associates at this call center will receive a pager which sends a notification when the medical staff is ready to see them. This will decrease down time and avoid any interruption of work flow, while providing more privacy than traditional waiting rooms.

JM Family is dedicated to maintaining a world-class work environment that emphasizes work/life balance with an emphasis on health and wellness, as well as offering competitive salaries and outstanding benefits for associates and their families. JM Family, a diversified automotive group, is currently ranked No. 28 by FORTUNE® as one of the 100 Best Companies to Work For, its 12th consecutive year on the list.
